PROFILE

Front-end / MERN Stack Developer with strong expertise in HTML, CSS, JavaScript, React.js, Next.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase, and TypeScript. Skilled in building responsive, user-friendly, and high-performance web applications. Passionate about delivering innovative solutions, optimizing performance, and collaborating in agile teams.

SKILLS

Front-End Development:

- HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Redux Toolkit, Tailwind CSS

Back-End Development:

- Node.js, Express.js

Database Management:

- MongoDB, Firebase

Tools & Technologies:

- Git, GitHub, VS Code, npm

Others:

- JWT, RESTful API, TypeScript

LANGUAGES

- **English (Fluent)**
- **BANGLA(Native)**

PROJECTS

Client Flow — Client & project management dashboard (Full stack)

- Built a responsive admin dashboard with Next.js and React, using Tailwind CSS and shadcn/Radix UI for clients, projects, tasks, and payments.
- Used TanStack React Query and Axios for data fetching, caching, and mutations against a REST API.
- Implemented a Node.js and Express back end with TypeScript and MongoDB (Mongoose) for CRUD APIs and structured responses

Final Tour (React.js)

- Developed an intuitive interface with React.js, allowing users to easily explore and book tours.
- Implemented Firebase for real-time tour bookings and secure user authentication, with JWT for managing secure sessions.
- Built a back-end with Express.js and Node.js to manage tour details, bookings, and user data.

Hotel Booking Website (React.js)

- Created a seamless booking experience with a React.js interface, enabling users to effortlessly search and reserve hotel rooms.
- Integrated Firebase for managing real-time bookings and ensuring secure user authentication.
- Developed a robust back-end using Express.js and Node.js to efficiently handle room availability, reservations, and user management.
